**Category**: Distribution

Company Name: Jagran New Media

## Introduction

**Jagran.com** is the Hindi News and Information site in India, which provides credible, and unbiased content to its users that covers wide range of categories like Politics, National, International, Local, Business, Auto, Technology etc

Jagran.com believes in providing meaningful content to consumers through DATA DRIVEN JOURNALISM, one of such initiative is **Election 360**.

**Election 360**, a platform which provide users reliable and well-structured information network which will help them to take an informed decision during Elections 2018/19.

## Objective

In today's information overload, users are in constant search for a trusted and analytically accurate information source, which can satiate their growing desire for information.

Therefore, to answer user's queries related to Election (2018/19), Jagran.com came up with **Election 360**, an interactive platform which aims at empowering people with relevant information pertaining to India electoral history since 1952 till 2014.

**Election 360** is a user friendly - data driven tool, which can curates over 2 lakh question and answer related to electoral and political history of all Indian 543 constituencies of all states and union territories.

# Election 360 (Background)

**Election 360** focuses on three major things data processing, data scope and its usage.

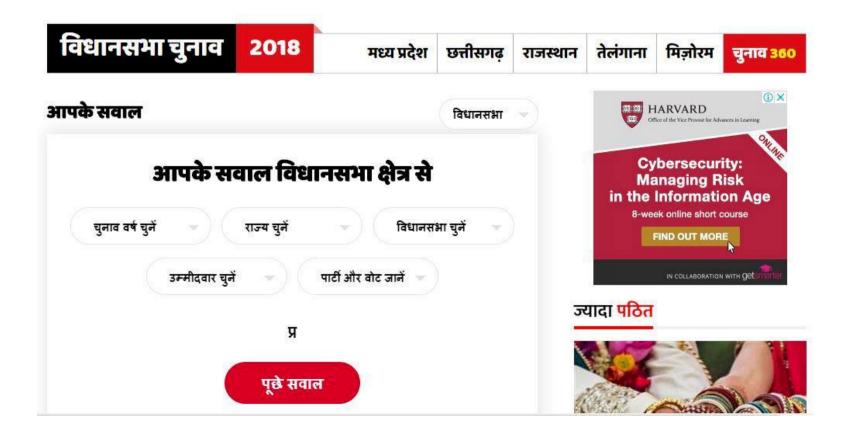

To get the access of authenticated electoral data of Indian political history of each constituency starting from 1952 to 2018 (from first election till the latest) and make it available to users in a structured way, Jagran.com took help of data from Association for Democratic Reforms (ADR), Election Commission of India and its own Archive.

These agencies provided the data in the hard copy format, which was converted and structured with 25 details, like:

- Top 3 contenders of each elections Winners, first and second runner ups
- Votes polled and percentage during all 16 parliamentary election
- Voting information (% of males/female, reserved or general)
- Details of a political party including its foundation, number of MPs to its kitty, ruled states, top leaders, their historical moments, symbol of the parties
- Political and electoral description of each of the states with details like- assembly constituencies and parliamentary constituencies

With this, information of more than 27,000 legislative assembly seats and more than 6,000 candidates kept in front of the readers.
