

PLASTIC KA PACKUP October - 2019

PLASTIC KA PACK-UP a unique campaign which was launched at the time of strict ban on 'Single-use' plastic .The major objective for this campaign is to support Indian Government & BBMP efforts on plastic ban.

In Bengaluru, BBMP (Bruhat Bengaluru Mahanagara Palike) has imposed a strict ban on 'Single-use' plastic, the campaign was launched on October, 2nd birth anniversary of Mahatma Gandhi. To back the same, RED FM has joined hands with BBMP to encourage Bengalurean's towards making the city plastic-free. As the campaign label 'Plastic Ka Pack-Up' advocates, RED FM is trying to make Bengaluru residents aware of the hazard caused due to plastic on our planet.

According to the Indian government, the ban on the first six items of single-use plastics will clip 5 per cent to 10 per cent from India's annual consumption of about 14 million tons of plastic. These include plastic bags, cups, plates, small bottles, straws and certain types of sachets.

The name Plastic Ka Pack up has a very straight forward message in it, where we are talking about stop "Single Use" Plastic and start using the organic products which doesn't have plastic element in it. Keeping their creative image and objective of purposeful entertainment intact, REDFM came up with plastic campaign which will help the cause to spread out among the general public & which will also support BBMP.
